

#2021UniversityOpportunities

Trying to figure out where to start your career? Maybe it's Twitter. Calling all **@Juniors**, **@PhDs**, **@NewGrads**, & **everybody in between** to find the program for you!

Twitter #Terns Internship

Summer 2021

A 12-week experience for third year+ undergraduate and graduate students to gain direct exposure to the day-to-day of the company. From engineering, to marketing, and finance, we welcome students from all educational backgrounds with various professional interests to apply.

For more information and to apply visit t.co/apply

Applications due **March 31, 2021**

@ThirdYears

Product Management Internship (PMI)

Summer 2021

PMI is a virtual 12-week summer internship experience focused on shipping products that impact the world, whether that is taking a whiteboard idea to market or designing accessible and intuitive user experiences.

For more information and to apply visit t.co/PMI

Applications due **January 3, 2021**

@NewGrads

Associate Product Management Program (APM)

Fall 2021

The mission of Twitter's Rotational Associate Product Manager (APM) program is to develop the next generation of product managers. Through training, mentorship, and rotating assignments within various product teams at Twitter, APMs gain a unique view into how we design products and bring them to market.

For more information and to apply visit t.co/APM

Applications due **October 25, 2020**

#NestGen New Grad Program

Year round

Twitter's global Experience New Grad program, #NestGen, is designed to prepare new college graduates to become exceptional leaders in tech. This global program focuses on technical skill development, interpersonal workshops, and community. #NestGen also provides learning & development panels, executive leadership chats, and mentorship. Could there be a better place to launch your career?
